Windtestcenter.com

TX-10

A TEXAN'S MAP OF THE UNITED STATES

Briefly...

Passion for renewable energy came at an early age:

College:

Worked at West Texas A&M University for 16 years

Mostly with the Alternative Energy Institute

What can

do for
you?

20 acres in a quiet location

Flat and open to the wind

480v 3 phase

240v 3 phase

Single phase

40 additional acres

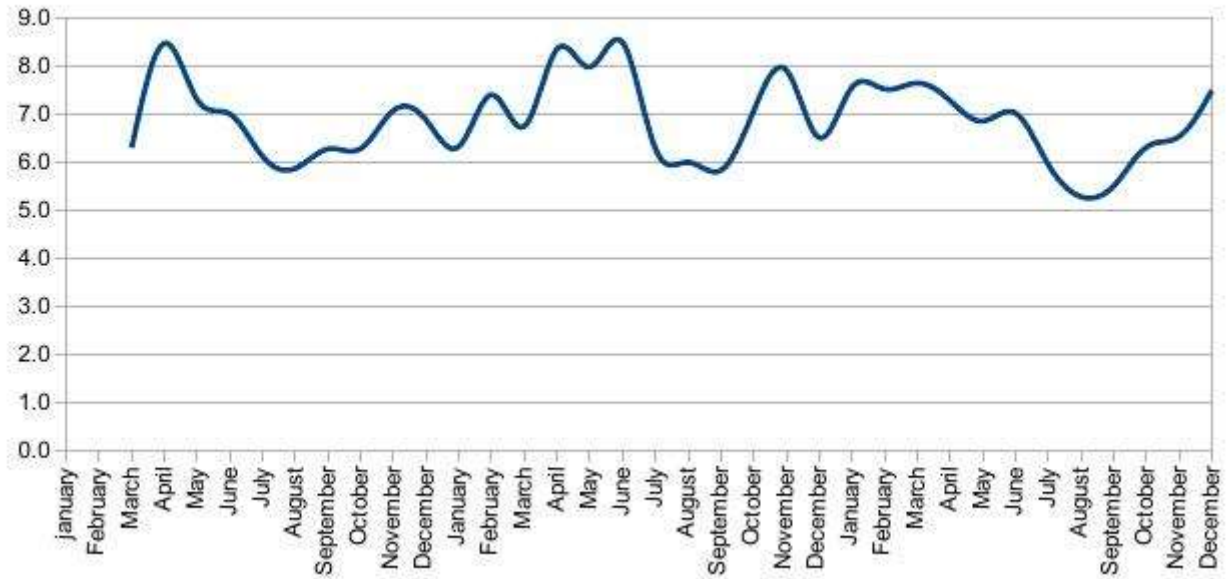

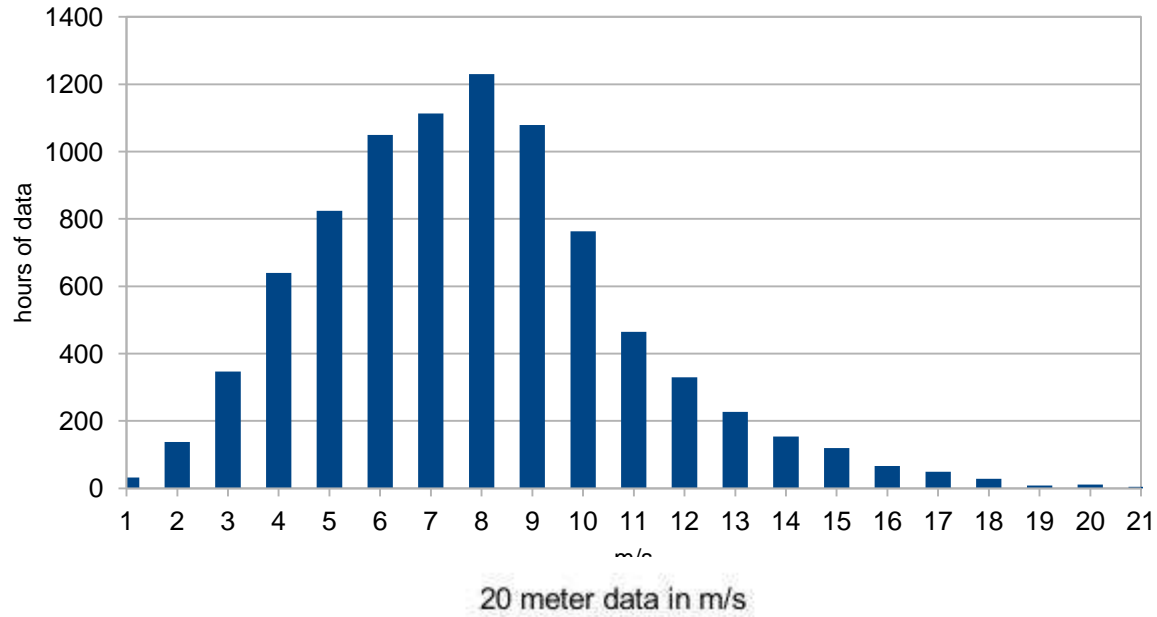

240v 3 phase/single phase

Next to Interstate 40

Good visibility, but noise challenges

RenewTest Yearly Wind Histogram

What can

do for
you?

For Small and Medium Wind Turbines:

AWEA standard based testing

IEC 61400 testing

Other standards

Custom testing

Prototype testing

Pre-certification testing

Data monitoring set up & custom control systems

Flexible Employee Structure

Agreements in place with multiple engineers & technicians allows maximum ability with minimal overhead.

Equates to savings for the customer.

Additional and symbiotic offerings:

Design assistance/analysis

Training

Modeling and CAD

FLIR imaging

3D scanning for structure and deflection analysis

Mechanical & electrical engineering assistance
